Ofc. Jordan,

As you are aware, the recent uptick in homelessness has affected our Media District to a large degree.

In particular, we have a small encampment that includes a motorhome that began around 9/9 and has not moved since.  
Some of the neighbors included in this email have noticed this as well.

There is a 20' Pace Arrow motor home (CA 3HHX828) that is daily violation of 4:00am to 6:30am street sweeping ordinance.  
I am calling Parking Enforcement at 4am daily. I am not aware if they are ticketing, but I do make the calls and I will tomorrow morning if they are still there.

The individuals in the tent are more of a concern so as this problem does not tend to grow into a permanent or larger encampment.  
Is it possible for you or one of your officers to visit these folks and encourage them to seek services so as not to be on the street?

If you could forward this message to Parking Enforcement to patrol during the 4am to 6:30am shift that would also help.

Thank you for your efforts in helping us with this problem.

Ron
